Improving our skills through education

We are delighted to invite you to participate in the **21st COGI Congress: Innovation in Reproductive Medicine**, which will take place in Frankfurt, Germany, May 14-16, 2015. [Read More](#)

Abstract Submission Deadline

March 15th 2015

Best abstracts will be selected for 7 minutes of oral presentation within the main program. Three best posters will receive a prize of 300,200,100 Euro respectively.

[Submit your abstract now](#)

Glimpse to the program

- Debate: Time-lapse technology. What is the goal and what are the differences between the technologies?
- Debate: New recombinant FSH on the market: views from the experts
- Autologous mitochondrial injection to increase energy in oocytes
- Non-invasive prenatal diagnosis from the blood of pregnant women- finally available in clinical practice
- How next-generation sequencing revolutionized reproductive medicine
- Ovarian fragmentation followed by Akt stimulation treatment in vitro and autotransplantation (in vitro activation – IVA)
- Cross-border transportation of fresh embryos: is it viable?
- "Burning out" PCOS patients
- The 3D embryo evaluation: a dream turned into a reality
