Screening for early and late-onset pre-eclampsia, from first to third trimester

Live webinar |  October 4th, 2023, at  12 pm CEST

We are happy to announce we will hold a **webinar** on Screening for early and late onset pre-eclampsia, from first to third trimester on **October 4th, 2023**, that will be available in a **live stream**.

We have invited Professor Fabricio Da Silva Costa to present latest scientific information concerning prediction of pre-eclampsia from first to third trimester.

As this webinar will be a live event, it's possible for all participants to directly ask questions after the lecture.

Agenda

Welcome

Pascaline Caruhel

Global Marketing Manager PNS, Thermo Fisher Scientific
